To Whom It May Concern,

In light of the attacks on the WTC, The Pentagon and the crash in Shanksville, PA. Can Secretary Abraham give Nevadans assurance that Yucca Mountain would not be in danger or vulnerable to terrorist attacks with nuclear waste deposits being stored and would potentially destroy Southern Nevada and neighboring states. Even the transportation of such materials is dangerous. And will Secretary Abraham be able to predict the effects of this proposed dumping in the next million years?

Thank You for reading this and listening to my concern,

George Vasku
